Wednesday, December 7, 2005

### **Wednesdays are Club Nights!**

CalTek.Net will be open (most) Wednesday evenings for Club Night. This is a time for you to join other Web developers in a relaxed atmosphere while you work on LAMP projects. Bring knotty problems to discuss with members. Or you may be able to help someone else past a prodigious programming problem.

Doors will be open 7 - 9 pm. Bring your laptop if you can. (There may be computers available.) We have Internet access, but please don't plan to download a Linux distro or other huge file.

Directions to CalTek.Net are on this page.

Join the User List to be warned of any last-minute cancellations.

Our weekly classes will resume sometime after SCALE in February.
