### Call for SCALE

SCALE is coming in February, and LAMP SIG will once again set up a exhibit!

However, exhibits don't run themselves and need people, henceforth known as "Exhibitionists".

Do you want to help the community and educate passers-by about the benefits of LAMP?

Do you want to meet fellow open-source enthusiasts?

Do you want to attend SCALE 7x for free?

Then show up this Saturday - we're still planning the next kick-ass booth application for this year, and discussions are definitely still open.
